**KINGSFIELD FARM, LINLITHGOW**

Davidson & Robertson Rural have assisted with the diversification and development of the farm. The unit now includes a golf driving range, a steading development, and there are further plans to expand the leisure side of the business.

Most recently we have assisted with regularising occupation of the land and providing flexibility by way of setting up a Contract Farming Agreement with a neighbouring farmer, as well as providing advice on the Single Farm Payment Scheme.

Robert Arkley commented “My family have a long relationship with Davidson & Robertson Rural who I know I can rely on to assist with my land agency requirements, and who appreciate and understand the need to add value in the current agricultural climate.”
